Commodore's Column:

Ahoy Fellow Wayfarers;

Deep winter is fading slowly as the earliest signs of spring are beginning to appear. The 2011 cruising season is just around the corner so its time to start planning your springtime boat clean-up/tune-up. Speaking of clean-up, our local pigeon flock has discovered Roundabout's fly bridge as a cozy roost. Anyone have a good recipe for pigeon pie?

The Watch for our February General Meeting delivered a delicious spread of homemade deserts and treats enjoyed by everyone; our thanks to Carl and Sue Sidle, and Mike and Barb Soskin. Mr. Bob Wise, the new owner of the Hadlock Marina, and Tod Hornick, the new Hadlock Marina Harbor Master, presented their long range plans for the Marina. Many members of the Club moor at Hadlock so Mr. Wise presentation was of keen interest. I believe everyone was encouraged by the stated commitment for a well maintained and managed facility.

Our very own Carlyn Stark will be presenting a brief oral sojourn though her fascinating lifetime of boating experiences at the March General Meeting. Carlyn is a dynamic speaker and her presentation is not to be missed; trust me!

The 2011 Roster is nearing completion and members will be notified when available. Expanding upon the "What's Happening" section of the Roster, our Website now includes a "PTCY Monthly Event Calendar". This new link includes a complete listing of all Club related events by date, by month. A quick glance and you can see everything scheduled so far throughout the year. Being part of the Website, the calendar is easily amended and updated, so it is always current. Please note the "TBA" items on the calendar are unassigned/unfilled. If you spot a Watch or Social etc. that you would like to help with, just give me call!

Meetings, cruises and social events are stacking up so get ready for a fun boating season. Our March social features a festive dinner at Pedro's Fiesta Jalisco; sign-up at the March General Meeting.

Commodore's Column: (concludes)

Finally, we continue with our infamous **“Sea-Word” Challenge**. Last month was fun as we contemplated the moody, inspiring words of John Masfield in this famous “Sea Fever” poem. This month we will consider an excerpt from a contemporary ballad about a famous shipwreck. What is name of song? Who wrote it? Good Luck!

Does anyone know where the love of God goes when the waves turn the minutes to hours
The searchers all say she'd have made Whitefish Bay had she put fifteen more miles behind her
She might have split-up, she might have capsized, she may have drove deep and took water
But all that remains are the faces and names of the wives and sons and the daughters.

That all for now, see ya all at the March General Meeting.

Fred Bell, Commodore

Senate Bill 5436: Reducing copper in antifouling paints used on recreational water vessels.

Below please find an excerpt of a paper that representatives of the Moorage Tenants Union researched, created and have sent to Olympia. It is their position paper on legislation currently being considered with regard to bottom paint on boats under 65 feet. The formal title is: Moorage Tenants Union Position and Concerns Over Legislation Known as **Senate Bill 5436: Reducing copper in antifouling paints used on recreational water vessels.** It came to us from Albert Foster. Please share as you feel appropriate. *Kathy Liu (See pytc.net/news for the paper in its entirety.)*

The Bill: The Moorage Tenants Union has recently learned of legislation to ban the use of copper bottom paint in recreational boats. Text of the bill, currently proposed in the State Senate and called SB 5436, can be found here:

<http://apps.leg.wa.gov/billinfo/summary.aspx?bill=5436&year=2011>

As of late January 2011 there was language proposing to restrict the definition of "recreational vessel" in this bill to mean only boats under 65 feet in length. This would mean all vessels of all types over 65 feet, including recreational, would still be allowed to use copper bottom paint. As of February 10, the bill's name was changed to "*Reducing copper in antifouling paints used on recreational water vessels.*" However, language that proposes to target only recreational boats under 65 feet is buried in another document. The Moorage Tenants Union will monitor this bill for alterations in language and intent.

A quick summary of the bill as it currently stands is as follows: *According to a 2007 study, the Department of Ecology has conducted research measuring copper concentrations in marinas and found the primary source of copper to be from the antifouling paints found on boat hulls. Research has shown copper to be highly toxic to aquatic life. As of January 1, 2013, no new recreational boat may be sold with copper in the bottom paint. After January 1, 2018, any recreational water vessel being sold must have been stripped of copper paint or sealed. And after January 1, 2020, no antifouling paint containing more than 0.5 percent copper may be sold in Washington. The Department of Ecology must monitor and certify compliance with the requirements. A civil fine is set for up to \$10,000 per day per violation.*

(See pytc.net/news for the paper in its entirety.)
